CARLISLE PARK RESERVE DOG FRIENDLY SPACE

2–20 Majestic Boulevard, Cranbourne

Carlisle Park Reserve is a well-established community recreation space located in Cranbourne North. The reserve features a large sports oval, sporting facilities, a playground, walking paths and open green spaces, providing opportunities for sport, recreation and community activities.

A new Dog Friendly Space is proposed within the reserve, adjacent to Narre Warren Road. The design aims to complement the existing park facilities by providing a safe and welcoming environment for dogs and their owners, featuring open grassed areas, natural play elements, meandering pathways, seating, a central shelter and landscape planting. The new space will enhance recreational opportunities and encourage social interaction within the local community.

Design Intent

The design adopts a natural, informal landscape approach, creating a balance between open spaces for active play and quieter areas for relaxation. Organic pathways, natural materials and integrated planting create a welcoming and engaging environment.

Key design features include:

- **Open Grassed Areas:** Spacious areas for dogs to run, exercise and socialise.
- **Meandering Pathways**: Organic pathways providing accessible circulation throughout the park.
- **Natural Play Elements:** Logs and rocks encouraging exploration and interactive play.
- **Central Seating**: Comfortable spaces for owners to rest, supervise and socialise.
- **Landscape Planting:** Perimeter trees and informal garden beds providing shade, visual amenity and a natural setting.
- **Secure Fencing and Access:** Perimeter fencing and designated pedestrian gates to support safe access and use.

The overall design promotes a balance of active play, passive recreation and social interaction while integrating naturally with the surrounding parkland.
